

# What's new and fixed in 3Dsurvey v2.6.2

## What's new:

- updated Chinese translations.

## What's fixed:

- improved CAD texts on orthophoto,
- fixed crash when loading empty file,
- improved vertex snapping on CAD when drawing,
- when opening existing project first image was not automatically shown,
- fixed inconsistent orthophoto calculation,
- fixed crash when importing DXF,
- bounding box now works for all data types, incl. DXF, LAS, PLY.

## Known issues:

- Calculating orthophoto in a non-orientated project crashes the application.
